DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 is allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art does not disclose nor suggest a filament having directional component lengths in two orthogonal axes, one of the orthogonal axes being parallel to the axis of rotation of the gauge head..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patents 3915009, 3199356 teach gauges that have filament elements.
